Atmosphere

Your garden. Your poolside. Your party or wedding. The richness and elegance of Indian traditional tents will transport your home or event to another time and place.

A retreat, not just from the sun, but from the everyday. When you strike the stakes, you define a space that truly is yours. Each of our tents, pavilions and canopies are individually handcrafted, thus each is unique. What's more, at your disposal is a broad pallet of styles and sizes, as well as decorative options and accessories. This is your special place, make it a reflection of you.

Our belief is that your pleasure is interwoven with your comfort. Our exteriors are strong and water-resistant off-white or colored canvas that withstands the elements. This is shelter. Step inside. You'll find our interiors are rendered in natural cotton with traditional woodblock prints in warm earth tones. This is sanctuary. Relax.
